

DOMBROCK

λ Welcome

Hi, my name is Mathieu Dombrock and this is my website.

It's built with my custom static site generator called [SteelSky](#).

I'm a software engineer with 10+ years of experience. I specialize in audio, web technologies and graphics/data visualization.

λ Across the web

You can check out my commercial audio software at [replicataudio.com](#).

I also have some other software available at [replicat.itch.io](#).

If that wasn't enough, you can find all of my open source projects at [github.com/matdombrock](#).

If you're interested, you can read more [about me](#).

λ Top Projects

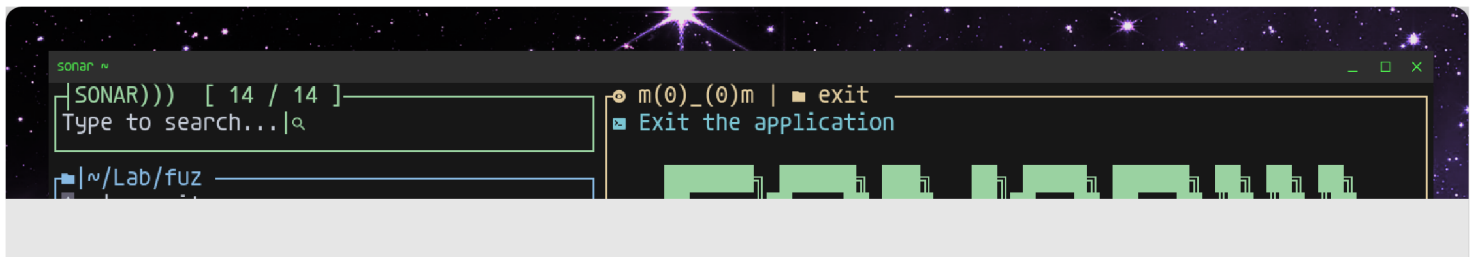

GreenWave

GreenWave is a unique and modern software synthesizer built from the ground up to create fresh sounds without giving up the classic analog phat.

C++, JUCE

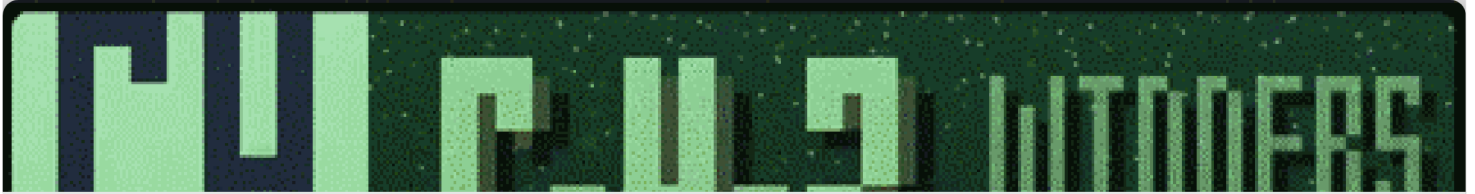

SONAR)))

A friendly, fuzzy find first, file manager for your terminal.

Rust, Ratatui

CH33TR

Hax your way to victory in CH33TR. A lo-fi rogue-like dice-roller where the only reason to lose is that you didn't cheat hard enough.

Lua, Love2D

NOPAZ

NOPAZ

No account, no vault, no worries.

No account, no vault, no worries. An account-less, vault-less, cloud-less password manager for humans.

No account, no vault, no worries. An account-less, vault-less, cloud-less password manager for humans.
